

19 000 visitors at Borgeby Fältdagar

Last week Nordic Seed was represented at the Nordic region's largest agricultural fair, Borgeby Fältdagar, in Sweden. The fair, which lasted over 2 days, exceeded all expectations and with a record number of visitors on day 1. In total, over 19,000 visitors passed by.

Nordic Seed, in collaboration with our Swedish representatives (KLF, Vallberga, Swedish Agro), had selected a number of varieties in different species, which were presented in demo plots. The plots looked really good and the interest was great for especially Pondus (winter wheat) and Bilbao (winter barley). We look forward to a good autumn season and not least to Borgeby Fältdagar in 2023.
